Dear Ms. Burt

Further to our phone conversation of last Thursday we still have some doubts about the development of the application referred.

On March 05 we received from your office a notification mailed 02/28/05 requiring the translation into english and 130 US\$ surcharge for the translation (total fees = 130 US\$). We sent you this translation and in the same time we ordered our bank the payment to you of this sum (130 US\$) by VISA and the bank accepted it.

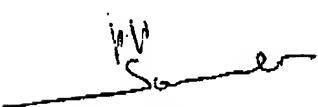

Later on we learned that our account was charged by the USPTO on 05/12/05 with 540 US\$, which appears to be the same sum we already had paid on July 16th , and 15th, 2.004. It seems now that our bank account (visa) has been double charged for the same procedure, or that there is a lack of information.

Please help us to clear up the subject. Kindly confirm us if we have been overcharged, and confirm receipt of the required translation and if all fees required for the procedures have been paid until now, informing us about a next due date.

You can briefly e-mail us to ptw@ptw-international.com or fax back to nr +34 91 650 6355

Thank you very much for your kind collaboration in this matter

Truly yours
